CAREER OBJECTIVE

I would like to be the next Deputy State Master Councilor of the Virginia DeMolay State Association because I believe that I can help guide the state in a direction of heightened brotherhood and growth. Throughout my five years as a member of the order of DeMolay I have been given the opportunity to meet with and learn from many different people. I believe that I can use my experience to help other members of the state gain a love for the order which I have gained myself. I envision a state where we have maximum attendance at chapter meetings and state quarterlies because all of the guys love to be around each other and come out to DeMolay events. In my chapter over the past couple of years we have placed a lot of focus on inclusion and having fun and it has helped our membership and attendance a ton. I would like to see this transferred to a state level and I believe that I would be able to help make this happen. I think that we have come a long way in the past few years in making the statement that "DeMolay has something for everyone" true but we still have some progress to make and I think that I can help get the state to the place that it needs to be. So, in conclusion I would like to be the next Deputy State Master Councilor of Virginia so I can help get every member involved in building great relationships and making memories that will last forever.
